GULF CHEMICALS

Protection, Well being and Safety

Since 1968

Who we are?

Gulf Chemicals is the first company in Kuwait to offer Pest Control Services.

For over 50 years, we have proudly provided a pest-free environment to homes and businesses in order to preserve a sustainable healthy living standard.

We take great satisfaction in being the local leaders in the pest control sector. Throughout our five decades in business, we've continued to build on and use the expertise of our professional, highly trained technical staff, who follow stringent, goal-oriented procedures developed through years of real-world experience to recognize, address, and prevent pest-related issues. This expertise is unmatched in the industry.

Hotels, restaurants, fast food chains, catering services, hospitals, supermarkets, showrooms, and other establishments are among the places where we offer pest control services.

Hospitals

Restaurants

Shopping Malls

Villas & Apartments

The requirement of each client is different, and we guarantee your satisfaction by providing a tailored solution to your specific needs and requirements. Pests, rodents, fungus and termites are a threat to our environment transmitting diseases hazardous to the health, and causing damage to infrastructure jeopardizing the sustainability of buildings and overall create and inconvenient environment.

Overall, we use integrated pest management (IPM), which is a method that relies on current, in-depth understanding of insect life cycles and interactions with the environment. Both are used in conjunction with other pest management methods to manage pest damage in a manner that is most cost-effective and poses the least danger to people, property, and the environment. We guarantee our clients a long-term safe and pest-free environment as part of our company strategy.

OUR MISSION

To provide the best quality solution through our trained personnel who will conduct the best treatment to manage your pest control issues in an ethical and timely manner.

OUR VISION

Ridding homes and businesses of Kuwait of pests and rodents, while continuing to expand our field of expertise.

Residential

Services

Residential Pest Control Services

We provide effective and complete pest control solutions to a variety of common residential pest-related issues for both indoor and outdoor services.

Gulf Chemicals Pest Control Services is a professional pest control service provider for the houses, villas, and apartments. We understand the problems faced by most home owners and supply our experienced staff to clear up your pest issues with pesticides approved by the Ministry Health. While being sure to provide a safe and healthy approach for your family and your living environment.

We are providing pest control services for a wide variety of pests including: bedbugs, cockroaches, ants, rats, and mice, spiders, silverfish, pantry pests, flying insects and all other kinds of pests. We offer one-time pest control service and annual pest control contracts with a free callback service which will leave you with peace of mind knowing that our pest control technicians are always ready if you are facing any kind of pests issue.

Commercial Pest Control Services

We provide professional pest control services for different types of businesses from food processing services, retail, hotels, schools, hospitals, offices, industrial and construction sites. In addition to, yachts, boats and warehouses.

We strongly understand that each business has its own unique needs pertaining to both the company and the specific requirements that are looking to be met. This knowledge allows us to cater to your individual needs in order to provide you with the best outcome for your pest control solution. GC pest control services is determined to provide you with its fully dedicated services to rid you of pest problems and prevent future ones.

Each evaluation begins with a site visit and consultation which will determine what your specific necessities and requirements are, GC then presents you with a pest control program, properly designed and best suited for your business. This offers you various methods of solution, control and a customized service plan, along with the appropriate documentation.
